

MODELS:
WCHD750; WCHD1000

APPLICATIONS

- Filter hood for counter-top food equipment featuring unique 3 stage filtration to enable cleaner, lower odour emissions. This counter-top model requires no ductwork and is designed for use over counter-top equipment to ensure a cleaner and safer kitchen environment. Bench mounted for use in new or existing premises.

STANDARD FEATURES

- 1.2mm 304 stainless steel construction with satin finish.
- Unique ductless design incorporates stainless steel baffle filters, polyester filters and activated carbon filters to clean dirty air discharged from counter-top equipment.
- Initial stainless steel filter drains freely to grease gutter and overflow pans
- Easily removable filters for simple cleaning
- Includes powerful 4 speed variable speed fan
- Includes ceiling mounted fluorescent lighting
- Supplied with 32mm x 32mm stainless steel square tube supports for locating on existing benchtops.
- Suitable for gas appliances up to 29mj and electric appliances up to 8kw.
- Supplied with 10 amp plug and lead.

OPTIONS

- Available in two sizes.
